

Club Neuroéthologie

Satellite Meeting of Neurofrance 2023

Lyon, May 23rd 2023

Amphithéâtre de l'Institut des Sciences Cognitives
Département Neurosciences Cognitives
67 Boulevard Pinel
69675 BRON Cedex

Convenors: German Sumbre & Martin Giurfa

9:00: Welcome

9:30 – 10:10: INVITED TALK – Nicolas MATHEVON (St Etienne) (30 +10): "*How crocodiles hear the world: acoustic communication and sound perception in a top predator*".

10:10 – 10:30: Aude RETAILLEAU (Bordeaux) (15 + 5): "*The newt's brain: blueprint of procedural learning network*".

10:30 – 10:50: Luigi BACIADONNA (Toulouse) (15 + 5): "*Individual visual recognition in African penguins (*Spheniscus demersus*)*".

BREAK 15 min

11:05 - 11:45: INVITED TALK - Sylvie RETAUX (Paris Saclay) (30 + 10): "*Evolution of sensory-driven behaviors in blind cavefish*".

11:45 – 12:05: Ehud VINEPINSKY (ENS Paris) (15 + 5): "*Neuronal response to vocalization in the optic tectum of blind Mexican tetra and their surface-dwelling relatives*"

12:05 – 12:25: Gautam SRIDHAR (Paris Sorbonne) (15 + 5): "*Data-driven discovery of long timescale behavioral strategies during sensory evoked locomotion*".

12: 25 – 14:00: Lunch

14:00 – 14:40: INVITED TALK - Jean Christophe SANDOZ (Gif-sur-Yvette) (30 +10): "*Evolutionary neuroethology of olfaction in honey bees and other Hymenoptera*".

14:40 – 15:00: Amélie CABIROL (Lausanne)(15 + 5): "*A defined community of core gut bacteria promotes cognitive development in honey bees*".

15:00 – 15:20: Melissa PITZALIS (Gif sur Yvette) (15 + 5) : “*Anatomy of central gustatory circuits in the honey bee brain*”.

BREAK 15 min

15:35 – 16:15: INVITED TALK - Catherine CROCKFORD (Lyon) (30 +10): “*The patterning and ontogeny of chimpanzee vocal sequences - and brain pathways*”.

16:15 – 16:35: Mercedes BENGOCHEA (Paris ICM) (15 + 5): “*Sensitivity to numbers is a crucial and evolutionarily conserved cognitive ability*”.

16:35 – 17:00: Discussion sur suite des activités et financement du Club.

17:00 – 19:00: Poster Session
